

Communication & Mass Media Complete™

Available via EBSCOhost®

The most robust, quality research solution in areas related to communication and mass media...

Communication & Mass Media Complete (CMMC) incorporates the content of *CommSearch* (formerly produced by the National Communication Association) and *Mass Media Articles Index* (formerly produced by Penn State)—along with numerous other journals in communication, mass media and other closely-related fields of study—to create a research and reference resource of unprecedented scope and depth encompassing the breadth of the communication discipline.

Content available through CMMC includes:

- Cover-to-cover “core” indexing and abstracts for more than 570 journals
- Selected “priority” coverage for nearly 200 additional journals
- Full text for over 450 journals
- Over 5,400 Author Profiles

Many major journals have indexing, abstracts, PDFs and searchable cited references from their first issues to the present (dating as far back as 1915).

In addition to its extensive journal content, CMMC contains a sophisticated Communication Thesaurus and comprehensive reference browsing (i.e., searchable cited references for peer-reviewed journals covered as “core”). CMMC’s expansive collection of Author Profiles provides biographical data and bibliographic information, covering the most prolific, most cited, and most frequently searched-for authors in the database.

CMMC covers most areas related to communication and mass media, including:

- Broadcasting
- Communication Arts
- Communication Management
- Communication Sciences
- Language & Speech
- Linguistics
- Marketing & Public Relations
- Media
- Sign Language
- And much more...
