Explore the Past in a New Way with the Historical Digital Archives Viewer

Replicates the experience of browsing and reading original archival material, while simultaneously allowing for keyword searching, manipulation of page views, note-taking capabilities and various download options.

The viewer includes a wide range of features and functionality designed to best meet the needs of users:

- Search within documents
- Multiple navigation options (through the Table of Contents, turning pages feature, or via EBSCO’s exclusive Page Map Feature)
- Ability to limit results by major information sources and document types to quickly hone in on the most desired content source
- Unique Hover feature allows users to hover over the Result List to view citation excerpts
- Searched keywords highlighted in text
- Differentiates between direct OCR and “fuzzy” matches
- Easy zoom-in for detailed close-up views of documents, and the ability to rotate page images
- View one or two pages simultaneously
- Unique Page Note feature allows users to take notes related to a particular page in the text, save it for future reference, and email it to others
- Cross-search databases on EBSCOhost for related articles and texts

Your Library Can Own a Piece of History

EBSCO enables librarians to acquire this valuable collection with a single payment and a small maintenance fee.
