| Amniocentesis Test for Chromosome Problems: Yes or No? | • Having amniocentesis  
• Not having amniocentesis | • What is it?  
• Will we know for sure if our baby has Down syndrome or another chromosome problem?  
• Are there risks to the baby?  
• If a problem is found, what does that mean for us?  
• What are women told after the test?  
• Are there other tests? | 0 | US and UK | WA State Certified - July 2018 |
| Atrial Fibrillation: Treatment Options to Lower Stroke Risk | • No treatment  
• Warfarin  
• Dabigatran  
• Rivaroxaban  
• Apixaban  
• Edoxaban  
• Aspirin  
• Left atrial appendage closure | • What does the treatment involve?  
• My risk of stroke due to blood clots?  
• My risk of major bleeding needing treatment?  
• Other risks and side effects?  
• Can blood thinning effect of the drug be reversed?  
• What is the cost? (for US version only) | 2 | US and UK | This decision aid meets requirements outlined in the Decision Memo for Percutaneous Left Atrial Appendage Occlusion (LAA) Closure Therapy by Centers for Medicare and Medicaid Services (CMS). |
| Down Syndrome Screening Test: Yes or No? | • Having screening for Down syndrome  
• Not screening for Down syndrome | • What is it?  
• What will the screening tests tell us?  
• How likely are we to get a lower- or higher-chance result?  
• Will we know for sure if our baby has Down syndrome?  
• What if the diagnostic test shows a problem?  
• Are there risks to the pregnancy? | 0 | US and UK | WA State Certified - February 2019 |
| Enlarged Prostate: Treatment Options for Benign Prostatic Hypertrophy | • Watchful waiting  
• Lifestyle changes  
• Alpha blockers  
• S-α-reductase inhibitors (5-ARIs)  
• Transurethral resection of the prostate (TURP)  
• Laser surgery  
• Transurethral microwave therapy (TUMT; for US version only) | • What does the treatment involve?  
• Will it help my symptoms?  
• Will I pee less often at night?  
• What are the risks of an enlarged prostate?  
• What are the side effects?  
• What are the risks of treatment? | 1 | US and UK |  |
| Failure to Progress in Labor: Delivery Options | • Vaginal delivery  
• Cesarean section (C-section) | • What does the delivery involve?  
• What are the risks to my baby?  
• What are the risks to me?  
• What is the chance that I will still have a C-section?  
• Will I be able to care for my baby?  
• What will my recovery be like? | 0 | US and UK |  |
| Heavy Menstrual Bleeding: Treatment Options | • Treatment with hormones  
• Medicine without hormones  
• Dilatation and curettage (D&C)  
• Endometrial ablation  
• Hysterectomy | • What does the treatment involve?  
• Will I bleed less?  
• Can I still get pregnant?  
• What are the side effects?  
• What are the risks? | 0 | US and UK |  |
| Hepatitis C Treatment Now: Yes or No? | • Delay treatment  
• Treatment with direct-acting antiviral medicines | • What does it involve?  
• Will the infection go away?  
• What are the side effects of treatment?  
• What are the risks? | 0 | US and UK | This decision aid meets requirements outlined in the Centers for Medicare and Medicaid Services (CMS) Quality Payment Program measure for “Hepatitis C: Discussion and Shared Decision Making Surrounding Treatment Options”. |
| Herniated Disk in Lower Back: Treatment Options | • Treatment without surgery  
• Shots in your back (epidural injections)  
• Surgery (open surgery)  
• Minimally invasive surgery | • What does the treatment involve?  
• Will it help my pain?  
• Might I get surgery later?  
• What are the side effects?  
• What are the risks?  
• When will I recover? | 0 | US and UK |  |
| Hip Osteoarthritis: Treatment Options | • Exercise  
• Physical therapy  
• Acetaminophen  
• Oral nonsteroidal anti-inflammatory drugs (NSAIDs)  
• Oral opioid medicines  
• Shots in your hip  
• Hip replacement | • What does the treatment involve?  
• Will it help my pain or activity?  
• How long will it work?  
• What are the side effects?  
• What are the risks?  
• How long until I recover from treatment? | 0 | US and UK |  |

| Implantable Cardioverter Defibrillator for Heart Failure: Yes or No? | Yes to ICD | What does the treatment involve?  
Will it help me live longer?  
Will it change my usual activities?  
Will the ICD shock my heart?  
What are the risks of having an ICD put in place?  
What are the long term risks?  
Can the ICD be turned off or removed? | 2 | US and UK | This decision aid meets requirements outlined in the Decision Memo for Implantable Cardioverter Defibrillators by Centers for Medicare and Medicaid Services (CMS). |
| Ischemic Heart Disease: Treatment Options for Chest Pain from One Blocked Artery | Taking medicines  
Unblocking the artery (using a stent) | What does the treatment involve?  
Will it help my symptoms?  
Will it lower my risk of a heart attack or dying?  
What are the side effects and risks?  
Will I need to unblock or bypass the artery later? | 0 | US and UK | |
| Kidney Dialysis: Stop or Stay On? | Stop Dialysis  
Stay on Dialysis | What does it involve?  
How will it change my life?  
How long will I live?  
How will I feel?  
Are there other risks?  
Is stopping dialysis suicide? | 0 | US and UK | |
| Knee Osteoarthritis: Treatment Options | Exercise  
Weight loss  
Acetaminophen  
Topical nonsteroidal antiinflammatory drugs (NSAIDs)  
Oral nonsteroidal antiinflammatory drugs (NSAIDs)  
Opioids  
Arthroscopy  
Osteotomy  
Partial knee replacement  
Total knee replacement | What does the treatment involve?  
Will it help my pain or activity?  
How long will it work?  
What are the side effects?  
What are the risks?  
When will I recover from treatment? | 1 | US and UK | This decision aid meets requirements outlined in the Centers for Medicare and Medicaid Services (CMS) Quality Payment Program measure for “Total Knee Replacement: Shared Decision-Making: Trial of Conservative (Non-surgical) Therapy.” |
| Lung Cancer Screening: Yes or No? | Screening  
No screening | What does the test involve?  
What does the test look for?  
What is my chance of having lung cancer diagnosed?  
What are the benefits?  
What are the risks? | 0 | US | This decision aid meets requirements outlined in the Decision Memo for Screening for Lung Cancer with Low Dose Computed Tomography (LDCT) by Centers for Medicare and Medicaid Services (CMS). |
| Previous C-Section: Delivery Options | Trial of labor after cesarean section (TOLAC)  
Planned cesarean section (C-section) | What does the delivery involve?  
What are the risks to my baby?  
What is the chance that I will still have a C-section?  
Will I be able to care for my baby?  
What will my recovery be like? | 0 | US and UK | |
| Prostate Cancer: Treatment Options for Low-risk Prostate Cancer | Watchful waiting  
Active surveillance  
External beam radiation therapy  
Brachytherapy  
Open prostatectomy  
Robotic prostatectomy | What does the treatment involve?  
What is my chance of dying from prostate cancer?  
Will my cancer spread?  
When will I recover?  
What are the risks and side effects? | 0 | US and UK | |
| Prostate Specific Antigen (PSA) test: Yes or No? | Not having a PSA test  
Having a PSA test | What does the test involve?  
Does a high PSA level mean I have cancer?  
Does a normal PSA test mean I do not have cancer?  
How many men will die of prostate cancer?  
What are the benefits?  
What are the risks?  
What are the risks of a prostate biopsy?  
What are the risks associated with prostate cancer? | 0 | US and UK | |
| Stenosis of Lower Back: Treatment Options for Spinal Narrowing | Treatment without surgery  
Shots in your back (epidural injections)  
Surgery | What does the treatment involve?  
Will it help my pain?  
What are the side effects?  
What are the risks?  
How long until I recover? | 0 | US and UK | |
| Uterine Fibroids: Treatment Options | Treatment with hormones  
Medicine without hormones  
Fibroid destruction  
Endometrial ablation  
Myomectomy  
Hysterectomy | What does the treatment involve?  
Will I have less bleeding and pain?  
Will the fibroids shrink or go away?  
Can I still get pregnant?  
What are the side effects?  
What are the risks? | 0 | US and UK | |

The table above lists various medical conditions and their corresponding treatment options along with frequently asked questions and their respective answers. Each option is accompanied by a decision aid that meets specific requirements outlined by the Centers for Medicare and Medicaid Services (CMS) or similar regulatory bodies.
