| **Amniocentesis Test for Chromosome Problems: Yes or No?** | • Having amniocentesis  
• Not having amniocentesis | • What is it?  
• Will we know for sure if our baby has Down syndrome or another chromosome problem?  
• Are there risks to the baby?  
• If a problem is found, what does that mean for us?  
• What are women told after the test?  
• Are there other tests? | 0  
US and UK | WA State Certified - July 2018 |  |
| **Atrial Fibrillation: Treatment Options to Lower Stroke Risk** | • No treatment  
• Warfarin  
• Dabigatran  
• Rivaroxaban  
• Apixaban  
• Edoxaban  
• Aspirin  
• Left atrial appendage closure | • What does the treatment involve?  
• My risk of stroke due to blood clots?  
• My risk of major bleeding needing treatment?  
• Other risks and side effects?  
• Can blood thinning effect of the drug be reversed?  
• What is the cost? (for US version only) | 2  
US and UK | This decision aid meets requirements outlined in the Decision Memo for Percutaneous Left Atrial Appendage (LAA) Closure Therapy by Centers for Medicare and Medicaid Services (CMS). |  |
| **Down Syndrome Screening Test: Yes or No?** | • Having screening for Down syndrome  
• Not screening for Down syndrome | • What is it?  
• What will the screening tests tell us?  
• How likely are we to get a lower- or higher-chance result?  
• Will we know for sure if our baby has Down syndrome?  
• What if the diagnostic test shows a problem?  
• Are there risks to the pregnancy? | 0  
US and UK |  |
| **Enlarged Prostate: Treatment Options for Benign Prostatic Hypertrophy** | • Watchful waiting  
• Lifestyle changes  
• Alpha blockers  
• S-alpha reductase inhibitors (S-ARIs)  
• Transurethral resection of the prostate (TURP)  
• Laser surgery  
• Transurethral microwave therapy (TUMT; for US version only) | • What does the treatment involve?  
• Will it help my symptoms?  
• Will I pee less often at night?  
• What are the risks of an enlarged prostate?  
• What are the side effects?  
• What are the risks of treatment? | 1  
US and UK |  |
| **Failure to Progress in Labor: Delivery Options** | • Vaginal delivery  
• Cesarean section (C-section) | • What does the delivery involve?  
• What are the risks to my baby  
• What are the risks to me?  
• What is the chance that I will still have a C-section?  
• Will I be able to care for my baby?  
• What will my recovery be like? | 0  
US and UK |  |
