| **Atrial Fibrillation: Treatment Options to Lower Stroke Risk** | No treatment  
- Warfarin  
- Dabigatran  
- Rivaroxaban  
- Edoxaban  
- Aspirin  
- Left atrial appendage closure | What does the treatment involve?  
- My risk of stroke due to blood clots?  
- My risk of major bleeding needing treatment?  
- Other risks and side effects?  
- Can blood thinning effect of the drug be reversed?  
- What is the cost? (for US version only) | 2 | US and UK | This decision aid meets requirements outlined in the Decision Memo for Percutaneous Left Atrial Appendage Occlusion (LAAC) Closure Therapy by Centers for Medicare and Medicaid Services (CMS). |
| **Down Syndrome Screening Test: Yes or No?** | Having screening for Down syndrome  
Not screening for Down syndrome | What is it?  
- What will the screening tests tell us?  
- How likely are we to get a lower- or higher-chance result?  
- Will we know for sure if our baby has Down syndrome?  
- What if the diagnostic test shows a problem?  
- Are there risks to the pregnancy? | 0 | US and UK | |
| **Enlarged Prostate: Treatment Options for Benign Prostatic Hypertrophy** | Watchful waiting  
- Lifestyle changes  
- Alpha blockers  
- S-Alpha reductase inhibitors (5-ARIs)  
- Transurethral resection of the prostate (TURP)  
- Laser surgery  
- Transurethral microwave therapy (TUMT; for US version only) | What does the treatment involve?  
- Will it help my symptoms?  
- How likely are we to get a lower- or higher-chance result?  
- What are the risks of an enlarged prostate?  
- What are the side effects?  
- What are the risks of treatment? | 1 | US and UK | |
| **Failure to Progress in Labor: Delivery Options** | Vaginal delivery  
- Cesarean section (C-section) | What does the delivery involve?  
- What are the risks to my baby?  
- What are the risks to me?  
- What is the chance that I will still have a C-section?  
- Will I be able to care for my baby?  
- What will my recovery be like? | 0 | US and UK | |
| **Heavy Menstrual Bleeding: Treatment Options** | Treatment with hormones  
Medicine without hormones  
- Dilation and curettage (D&C)  
- Endometrial ablation  
- Hysterectomy | What does the treatment involve?  
- Will I bleed less?  
- Can I still get pregnant?  
- What are the side effects?  
- What are the risks? | 0 | US and UK | |
| **Hepatitis C Treatment Now: Yes or No?** | Delay treatment  
- Treatment with direct-acting antiviral medicines | What does it involve?  
- Will the infection go away?  
- What are the side effects of treatment?  
- What are the risks? | 0 | US and UK | This decision aid meets requirements outlined in the Centers for Medicare and Medicaid Services (CMS) Quality Payment Program measure for “Hepatitis C: Discussion and Shared Decision Making Surrounding Treatment Options”. |
| **Herniated Disk in Lower Back: Treatment Options** | Treatment without surgery  
- Shots in your back (epidural injections)  
- Surgery (open surgery)  
- Minimally invasive surgery | What does the treatment involve?  
- Will it help my pain?  
- Might I get surgery later?  
- What are the side effects?  
- What are the risks?  
- When will I recover? | 0 | US and UK | |
| **Hip Osteoarthritis: Treatment Options** | Exercise  
- Physical therapy  
- Acetaminophen  
- Oral nonsteroidal anti-inflammatory drugs (NSAIDs)  
- Oral opioid medicines  
- Shots in your hip  
- Hip replacement | What does the treatment involve?  
- Will it help my pain or activity?  
- How long will it work?  
- What are the side effects?  
- What are the risks?  
- How long until I recover from treatment? | 0 | US and UK | |

| Implantable Cardioverter Defibrillator for Heart Failure: Yes or No? | • Yes to ICD  
• No to ICD | • What does the treatment involve?  
• Will it help me live longer?  
• Will it change my usual activities?  
• Will the ICD shock my heart?  
• What are the risks of having an ICD put in place?  
• What are the long term risks?  
• Can the ICD be turned off or removed? | 2 | US and UK  
- This decision aid meets requirements outlined in the Decision Memo for Implantable Cardioverter Defibrillators by Centers for Medicare and Medicaid Services (CMS). |
| Ischemic Heart Disease: Treatment Options for Chest Pain from One Blocked Artery | • Taking medicines  
• Unblocking the artery (using a stent) | • What does the treatment involve?  
• Will it help my symptoms?  
• Will it lower my risk of a heart attack or dying?  
• What are the side effects and risks?  
• Will I need to unblock or bypass the artery later? | 0 | US and UK |
| Knee Osteoarthritis: Treatment Options | • Exercise  
• Weight loss  
• Acetaminophen  
• Topical nonsteroidal antiinflammatory drugs (NSAIDs)  
• Oral nonsteroidal antiinflammatory drugs (NSAIDs)  
• Opioids  
• Arthroscopy  
• Osteotomy  
• Partial knee replacement  
• Total knee replacement | • What does the treatment involve?  
• Will it help my pain or activity?  
• How long will it work?  
• What are the side effects?  
• What are the risks?  
• When will I recover from treatment? | 1 | US and UK  
- This decision aid meets requirements outlined in the Centers for Medicare and Medicaid Services (CMS) Quality Payment Program measure for “Total Knee Replacement: Shared Decision-Making; Trial of Conservative (Non-surgical) Therapy.” |
| Lung Cancer Screening: Yes or No? | • Screening  
• No screening | • What does the test involve?  
• What is my chance of having lung cancer diagnosed?  
• What are the benefits?  
• What are the risks? | 0 | US  
- This decision aid meets requirements outlined in the Decision Memo for Screening for Lung Cancer with Low Dose Computed Tomography (LDCT) by Centers for Medicare and Medicaid Services (CMS). |
| Previous C-Section: Delivery Options | • Trial of labor after cesarean section (TOLAC)  
• Planned cesarean section (C-section) | • What does the delivery involve?  
• What are the risks to my baby?  
• What are the risks to me?  
• What is the chance that I will still have a C-section?  
• Will I be able to care for my baby?  
• What will my recovery be like? | 0 | US and UK |
| Prostate Cancer: Treatment Options for Low-risk Prostate Cancer | • Watchful waiting  
• Active surveillance  
• External beam radiation therapy  
• Brachytherapy  
• Open prostatectomy  
• Robotic prostatectomy | • What does the treatment involve?  
• What is my chance of dying from prostate cancer?  
• Will my cancer spread?  
• When will I recover?  
• What are the risks and side effects? | 0 | US and UK |
| Prostate Specific Antigen (PSA) test: Yes or No? | • Having a PSA test  
• Not having a PSA test | • What does the test involve?  
• Does a high PSA level mean I have cancer?  
• Does a normal PSA test mean I do not have cancer?  
• How many men will die of prostate cancer?  
• What are the benefits?  
• What are the risks?  
• What are the risks of a prostate biopsy?  
• What are the risks associated with prostate cancer? | 0 | US and UK |
| Stenosis of Lower Back: Treatment Options for Spinal Narrowing | • Treatment without surgery  
• Shots in your back (epidural injections)  
• Surgery | • What does the treatment involve?  
• Will it help my pain?  
• What are the side effects?  
• What are the risks?  
• How long until I recover? | 0 | US and UK |
