EBSCO has been licensing the world’s most well-respected full-text history reference content, and *History Reference Center* is the culmination of this initiative. EBSCO Publishing’s team of librarians, educators and editors worked together to produce this authoritative database that meets researchers’ needs in a single search. This database contains more than 1,620 full-text reference books, encyclopedias and non-fiction books from leading history publishers. *History Reference Center* also includes cover-to-cover full text for more than 150 leading history periodicals, as well as nearly 57,000 historical documents and more than 77,000 biographies of historical figures. Additionally, *History Reference Center* has easy access to more than 80 hours of streaming video content.
