Arte Público Hispanic Historical Collection: Series 1

The Arte Público Hispanic Historical Collection: Series 1 digital collection presents historical content pertaining to U.S. Hispanic history, literature and culture. This collection provides an overview of key aspects of the “Recovering the U.S. Hispanic Literary Heritage Project,” which is the largest national program to locate, identify, preserve and disseminate Hispanic culture of the United States in its written form since colonial times until 1960. The Recovery collection includes approximately 60,000 historical articles and 1,000 historical books. With 80% of the content in Spanish and 20% is in English, the content is indexed and searchable in both languages. Series 1 includes content from:

- Scholarly & reference books
- Historical newspapers
- Magazines and periodicals
- Historical pamphlets

Cross-Database Searching

EBSCO Publishing offers a number of databases that complement the Historical Digital Archive Collections, including EBSCOhost databases such as Historical Abstracts with Full Text and America: History and Life with Full Text, plus ATLASerials’ Religion Collection and the ATLA Religion Database with ATLASerials*. EBSCO also offers the Catholic Periodical and Literature Index Online, Old Testament Abstracts Online, and New Testament Abstracts Online thanks to agreements with ATLA and its partners.

Historical Digital Archives Viewer

EBSCO Publishing has developed a customized viewer for Historical Digital Archive content. It is based on the same powerful, intuitive, flexible, data-driven approach that the EBSCOhost platform provides. The viewer brings the content alive and allows the user to explore, manipulate, collect, take notes and export the content. The viewer is fast, universal and natural.

The viewer includes a wide range of features and functionality designed to best meet the needs of users, such as:

- Searching within documents
- Multiple navigational options (through the Table of Contents, turning pages, or via EBSCO’s exclusive “Document Map”)
- The ability to limit results by major information sources and document types to quickly hone in on the most desired content source
- The unique Hover feature to allow users to simply hover over the Result List to view citation excerpts
- Searched keywords highlighted in text
- A differentiation between direct OCR and “fuzzy” matches
- View one or two pages at a time
- Easy zoom-in for detailed close-up views of documents, and the ability to rotate page images reference as well as email it to others
- Viewing of one or two pages simultaneously
- The unique Page Note feature to allow users to take notes related to a particular page in the text, save it for future reference, and email it to others
- Cross-database searches on EBSCOhost for related articles and texts
