Research Starters™ articles include:

■ Abstracts
Concise article summaries introduce the topic and cover the key points of each article section. Significant keywords efficiently guide users to relevant articles.

■ Keywords
The convenient keyword list includes subtopic descriptions, theories discussed in the articles, and the vocabulary defined in Terms & Concepts. Terms from this list provide researchers with efficient retrieval of relevant articles.

■ Topic Overviews
Detailed topic overviews explain the relevance of the article to specific areas of research and how the various subtopics relate to each other.

■ Further Insights/Applications
This section presents tips on how to relate overview discussion points to everyday experiences. Charts, graphs, diagrams and relevant examples are utilized to increase comprehension.

■ Viewpoints/Issues/Discourse
Researchers can develop critical perspectives on topics through the examination of multiple viewpoints drawn from the writings of a variety of experts in related fields.

■ Terms & Concepts
To promote deeper understanding, this concise glossary of terms and concepts provides researchers with a grasp of the keywords and phrases associated with each topic.

■ Bibliography
A full bibliography of sources is included with each article. Links to pertinent EBSCOhost articles are provided, which may present quick, easy access to important, related content.

■ Suggested Reading
A special Suggested Reading section within each topic includes three or more additional sources for each topic to use in further research. Suggested Reading may include a combination of electronic and print-only sources for further study.
