Supporting and Enhancing Dentistry & Oral Sciences Collections through Comprehensive Indexing & Additional Full-Text Content

EBSCO Publishing introduces the only index specifically designed for dental research — *Dentistry & Oral Sciences Source*™.

Offering deep backfile coverage and a strong collection of cover-to-cover indexing and full-text, *Dentistry & Oral Sciences Source* provides the latest information and high-quality content available to those already working in, or looking to enter, the field of dentistry. Along with detailed indexing, this database contains an outstanding full-text collection of prominent industry journals, magazines, books and monographs — most of which are unique to this database.

In addition to containing many leading national (U.S.) industry periodicals, *Dentistry & Oral Sciences Source* includes strong international coverage, as well as a growing collection of state/province-specific dentistry journals. Searchable cited references for more than 120 journals, with links to the complete text of many of the original works, are an additional highlight of this database.

Full-text collection of prominent industry journals includes:

- *Journal of Oral Laser Applications*
- *European Journal of Oral Implantology*
- *Journal of Orofacial Pain*
- *Journal of Dental Research*
- *International Journal of Orofacial Myology*
- *Oral Health & Preventive Dentistry*
- *Pediatric Dentistry*
- *The International Journal of Periodontics & Restorative Dentistry*
- *Endodontic Practice Today*
- And many more...
