EMBASE Now Available on EBSCOhost® for Hospitals
~EBSCO Publishing and Elsevier Agreement Allows Hospitals to Access EMBASE via EBSCOhost®~

IPSWICH, Mass. — May 15, 2009 — EBSCO Publishing and Elsevier have entered into a partnership allowing hospitals to access EMBASE on EBSCOhost®. EMBASE, a biomedical bibliographic database produced by Elsevier, is especially strong in coverage of drug and pharmaceutical research and contains over 12 million records derived from biomedical articles in peer-reviewed journals.

The database covers nearly 5,000 active journals, of which nearly 2,000 are not covered by MEDLINE®. Each EMBASE record contains a full bibliographic citation, and more than 80% have an abstract. In addition, all EMBASE records are indexed using EMTREE, Elsevier’s Life Science thesaurus. EMTREE contains 55,000 preferred terms, of which 27,000 are drug terms.

EMBASE includes broad coverage of biomedical areas including:

- Drug therapy and research—including pharmaceutics, pharmacology & toxicology
- Clinical and experimental (human) medicine
- Basic biological science relevant to human medicine
- Biotechnology and biomedical engineering—including medical devices
- Forensic science
- Health policy and management—including pharmacoconomics
- Psychiatry and mental health—including substance dependence and abuse
- Public, occupational and environmental health—including pollution control

Representing published journals from 70 countries and 30 languages, EMBASE includes more than 12 million records from 1974 to present. Over 600,000 records are added annually.
With its comprehensive, international and up-to-date coverage, *EMBASE* is an indispensable bibliographic database for researchers and information specialists who need access to and precision retrieval from the world's biomedical and drug literature.

The EBSCOhost platform is the most-used platform for STM research. EBSCOhost is used as the primary research interface in tens of thousands of libraries and institutions around the world.

**About EBSCO Publishing**

EBSCO Publishing is the world’s premier database aggregator, offering a suite of nearly 300 full-text and secondary research databases. Through a library of tens of thousands of full-text journals, magazines, books, monographs, reports and various other publication types from renowned publishers, EBSCO serves the content needs of all medical professionals (doctors, nurses, medical librarians, social workers, hospital administrators, etc.). The company’s product lines include proprietary databases such as *CINAHL®, DynaMed™, Nursing Reference Center™, Patient Education Reference Center™, Rehabilitation Reference Center™, SocINDEX™ and SPORTDiscus™* as well as dozens of leading licensed databases such as *MEDLINE®, PsycARTICLES® and PsycINFO®*. Databases are powered by EBSCOhost®, the most-used for-fee electronic resource in libraries around the world. For more information, visit the EBSCO Publishing Web site at: www.ebscohost.com, or contact: information@ebscohost.com.

EBSCO Publishing is a division of EBSCO Industries Inc., one of the largest privately held companies in the United States.
