Providing extensive indexing and full-text coverage of the leading library information sciences resources...

Library and Information Sciences Databases

- **Library, Information Science & Technology Abstracts™ with Full Text**
  Library, Information Science & Technology Abstracts™ with Full Text indexes more than 550 core journals, nearly 50 priority journals, and nearly 125 selective journals; plus books, research reports and proceedings. This database also contains full text for more than 300 journals and more than 20 full-text monographs including Handbook of Electronic & Digital Acquisitions (2006), Library/Vendor Relationships (2006), Journals of the Century, etc.

- **Information Science & Technology Abstracts**
  Information Science & Technology Abstracts™ is a leading database in the area of information science. Subject coverage includes classification, cataloging, bibliometrics, online information retrieval, information management, search engines, printed and electronic information sources, the information industry, scholarly communication, electronic publishing, and more. ISTA indexes journal articles from more than 450 publications plus books, research reports, and conference proceedings, with ongoing comprehensive coverage of the most important periodicals in this field.
  The database has been enhanced to include cover-to-cover indexing and abstracts for 80 core information science and technology titles. With coverage dating as far back as the mid 1960s, it is the oldest continuously produced database covering the field of information science.

- **The Serials Directory™**
  This database provides access to the most up-to-date and accurate bibliographic information as well as current pricing structures for popular serials. This invaluable resource is made available via EBSCOhost®. It contains nearly 212,000 U.S. and international titles, including newspapers; data from nearly 108,235 publishers worldwide, including e-mail and Internet addresses; and Library of Congress and Dewey Decimal Classifications for every entry.

- **Book Index with Reviews™**
  Book Index with Reviews™ (BIR) is a comprehensive database that provides information on over 4 million book titles in a wide range of formats, including large print, books on tape, etc. Fiction and non-fiction titles for juvenile and adult audiences across all genres are included in the database. The product contains over 800,000 full-text searchable reviews from the most trusted sources.
